# City Contract Boards and City Reputation

> [Completed] City Contract Boards are now live on Live (v1.7.0), and also run on the Test and Experimental servers.

# What's New

- **City Contract Boards**: a new "City Contract Board" terminal stands at the starport and the cantina of Mos Eisley (Tatooine), Coronet (Corellia) and Theed (Naboo).
- **27 contracts at launch**: Daily and Weekly lists offer jobs such as bounties, patrol recon, recon retrieval, crafting orders and creature hunts. A countdown shows when the daily list resets.
- **Rewards**: credits, experience and city standing.
- **City standing**: each city tracks how it sees you across 5 tiers, starting at Offworlder and moving up to Known Face and beyond. Higher tiers unlock harder, better contracts.
- **Reputation tab**: your Character screen has a new Reputation tab showing your standing in each city.
- **Quest Journal**: board contracts are listed under "Contract Board Quests". Dynamic quests from NPCs are now grouped under "NPC Quests", and task counters show a simple count such as 0/6.

# How to use a board

1. Visit a City Contract Board at a starport or cantina in Mos Eisley, Coronet or Theed. Use the waypoint table below to find them.
2. Use the radial menu and choose "Open Contract Board".
3. Browse the Daily and Weekly tabs. Select a contract to read its description, objectives, payment and requirement.
4. Press Accept. Track it in your Quest Journal (`Ctrl+J`).
5. Open the Standing tab to see your tier in that city, progress to the next tier, contracts completed and your favourite contract type.

# Board locations and waypoints

Copy a command into your chat window and press Enter. A waypoint to that board appears in your datapad and on your map.

| Planet | City | Location | Waypoint command (copy and paste) |
|---|---|---|---|
| Tatooine | Mos Eisley | Starport plaza | `/waypoint tatooine 3499 -4784 Mos Eisley Starport Contract Board` |
| Tatooine | Mos Eisley | Cantina | `/waypoint tatooine 3477 -4843 Mos Eisley Cantina Contract Board` |
| Corellia | Coronet | Starport | `/waypoint corellia -133 -4711 Coronet Starport Contract Board` |
| Corellia | Coronet | Cantina | `/waypoint corellia -352 -4540 Coronet Cantina Contract Board` |
| Naboo | Theed | Starport | `/waypoint naboo -4865 4183 Theed Starport Contract Board` |
| Naboo | Theed | Cantina | `/waypoint naboo -5158 4297 Theed Cantina Contract Board` |

> [NOTE] The two numbers are the X and Z map coordinates. You can create a waypoint for another planet too; it will show once you travel there.
