Ranger Details

Rangers are the galaxy's premier trackers and survivalists, blending unparalleled wilderness expertise with lethal precision. Armed with a rifle, the Ranger operates as a solitary hunter, focusing on stealth and devastating single-target ranged damage. By deploying a tactical kit of roots, snares, and advanced traps like the Wire Mesh and Glow Wire, they dictate the flow of combat and ensure their target never gets close enough to strike back.

While their pinpoint damage is exceptional, a true Ranger knows that facing multiple enemies in open crossfire is a death sentence. Instead, they rely on their deep mastery of concealment to slip away, retreating into the shadows to recover and re-engage from a superior vantage point.
