v2.0.2 Live Update

> [Completed] v2.0.2 is live on Secura Horizon and Secura Origins. This hotfix restores crafting, Merchant, Ranger, Spy, Smuggler and pilot features that went missing in the move to the skill system, and makes profession quests, rewards and experience follow the skills you hold. Run the launcher and let it finish before you log in.

This update follows the v2.0.1 Live Update. Existing characters receive everything they qualify for the next time they log in, with nothing to claim or train again.

What's New

Crafting

Profession	Restored
All crafters	Experimentation, complexity, resource quality and attachment upgrade bonuses
Droid Engineer	Cybernetic side-effect reduction
Merchant	Resource sampling, factory and storage bonuses, and vendor cost reduction

- Vendor registration is back for crafting masters and Merchants.
- Crafting masters receive their master badges at their next login.

Combat professions

- **Ranger and Spy:** camouflage is restored. Spies also regain detection.
- **Smuggler:** junk dealer and loot bonuses are restored.

Pilots

- A faction pilot can now also train the neutral pilot line. You still cannot hold both faction pilot lines.

- Surrendering a pilot line clears any unspent space experience from that line.

Quests, rewards and experience

Profession quests, rewards and experience now follow the skills you hold, so a multi-class character is treated by the boxes it owns.

Smaller fixes

- Musicians see their song start message.
- Pet Damage now displays its name.

What You Need To Do

1. Start the launcher and let it update.
2. Log in on Secura Horizon or Secura Origins as usual.
3. Your restored bonuses and badges are delivered automatically at login.

FAQ

Do I need to retrain my skill boxes? No. Restored content works on the boxes you already hold.

Does this apply to both servers? Yes. Secura Horizon and Secura Origins both received v2.0.2.

Where do I report a problem? Use the usual bug report channel on the SWG Secura Discord, and say which profession or skill box was involved.
